Summer 2021

What Camp Fontanelle is preparing for related to Covid-19?

We are blessed to have you be a part of our summer camp ministry at Camp Fontanelle. 2020 has been a challenging year for so many; we hope that being at camp will bring your child/children a sense of peace and relief in spending need time outdoors in a supportive community.

Camp Fontanelle staff are doing their best to make sure that the camp continues to set guidelines set forth by the American Camping Association and the Great Plains Camping Inc. Some additional measures our camp will be taking include:

- Staying up-to-date with current directives and instructions provided by state and local health authorities.
- Complying with all government-issued guidance and recommendations for cleaning and sanitizing facilities.
- Implementing guidelines and training for staff and residential campers about safe practices.
- Changes in our registration procedures including a temperature check, and screen assessment for potential COVID-19 related illness.
- Implementing new procedures that help prevent the spread of COVID-19, as well as procedures set in place if illness were to occur during camping sessions.
- Recognizing that masks maybe required in designated and indoor areas at camp, and how to effectively include that within program areas.
- Dividing groups within camp sessions to meet requirements regarding number of people gathered.
